STRUCK BY TRAIN, MAN IS KILLED INSTANTLY

James W. Roberts, of Fairfax County, Va., Meets Death in Same Manner as Father Did 30 Years Ago.

CORONER'S JURY MEETS TODAY

Alexandria, Va., July 10.—James W. Roberts, sixty-three years old, of "Camden," Fairfax County, was struck and instantly killed today by northbound passenger train No. 10, over the Richmond, Fredericksburg and Potomac Railroad, at Alexandria. The train was about to leave when it struck Mr. Roberts, who was crossing the tracks at that point on route to his home. His horse was killed and the buggy demolished.

Mr. Roberts' body was thrown across the southbound track and his skull fractured.

The body was removed to the Roberts' home by order of Magistrate Stuart, of Fairfax County.

The train which struck Mr. Roberts stopped in this city, and their way made a report of the accident. A southbound passenger train which was about to leave was delayed for the body.

Mr. Roberts was unmarried and is survived by a brother, Walter Roberts, and a sister, Miss Eliza Roberts.

He was president of the Independent Mutual Fire Insurance Company, of Fairfax County, a director in the Citizens' National Bank, vice president of the Alexandria Water Company, director of Ivy Hill Cemetery, and a member of the school board of Fairfax County.

Thirty years ago his father, R. F. Roberts, while driving a pair of horses to his home and crossing at the same spot met death in a similar manner. One of the horses was killed and the buggy demolished. The accident happened September 13, 1884.

The funeral of Mr. Roberts will take place at 10 o'clock Sunday morning from his late home at "Camden" and burial will be private.

A coroner's jury summoned by Magistrate George C. Stuart, of Fairfax County, met at Mr. Roberts' home tonight but adjourned until 3 o'clock tomorrow night when it will meet at the office of the Alexandria Water Company and hear the witnesses, among them the crew of the train.

The Grand Lodge of Masons of North Dakota will contribute its full quota to the George Washington Masonic Memorial Association, according to a letter received today by Charles H. Callahan, secretary of the local committee, from Walter L. Stockwell, grand secretary of the Grand Lodge of North Dakota.

Accompanying the letter were the checks for \$100 each from the following: Grand Lodge of North Dakota, the grand chapter and grand commandery of Knights Templar. These bodies will be charter members of the association.

Mr. Callahan also received a check for \$100 from the general grand chapter of Royal Arch Masons of the United States, with advice that other contributions from this source will be forthcoming.

Contributions of \$5,000 and \$3,000, respectively, already have been made by the Grand Lodges of Michigan and Iowa.

The taking of testimony in the suit of H. B. Hutchison against the New York and Pennsylvania Company, a corporation, was completed at 5:30 o'clock this afternoon before Judge Edmund Waddill in the United States Court for the Eastern district of Virginia.

Court then was adjourned until 10:30 o'clock tomorrow morning, when instructions will be given.

TAUGHT SEX HYGIENE 5 YEARS; NO RESULT

Speaker at A. N. E. Convention Says Chastity Must Be Urged in Separate Classes.

St. Paul, Minn., July 10.—Utterances at the joint session of the department of science instruction and secondary instruction of the National Educational Association started the convention today.

The education system of today was scored in all its phases. It was urged that the high school courses start in the seventh instead of the ninth grade; that children be assisted to "find" themselves before they reach the high school, and that the high school be used then to prepare them for the work which they decide to do.

"The subject must not be taught in the classroom in its entirety, but must be given in connection with various studies," said Mr. Mount. "Sex is so much in evidence all through life that it is difficult to treat the subject in the classroom."

"We must insist on chastity with one standard for boys and girls. Boys and girls must be taught these things in separate classes. The eugenic idea is here to stay and should be illuminated by science as the guiding star to a better race."

John H. Francis, superintendent of schools of Los Angeles, scored teachers and their ways. There was much criticism of his remarks.

That the moral tone of his school has improved and no direct effects have come from five years' experiments in the teaching of sex hygiene in the Walter High School, of Chicago, were assertions by Ralph E. Blount, teacher of psychology. The speaker said the home must play an important part in the matter of sex hygiene instruction.

"The subject must not be taught in the classroom in its entirety, but must be given in connection with various studies," said Mr. Mount. "Sex is so much in evidence all through life that it is difficult to treat the subject in the classroom."

"We must insist on chastity with one standard for boys and girls. Boys and girls must be taught these things in separate classes. The eugenic idea is here to stay and should be illuminated by science as the guiding star to a better race."

MONSTER SUFFRAGE MEETING AT SOCIETY'S SUMMER CASTLE

Chicago, July 10.—There is no restaurant or summer garden trust in Chicago. One downtown inn installed an ice-cream rink right in the middle of the restaurant floor, opened with an ice hockey game between alleged professional hockey players and invited members of the rink colony to quip wriggling for the summer and go on a genuine skate.

A North Side summer garden, popular rendezvous for fashionable folk, advertised free instruction every afternoon and evening in the tango and maxixe by two tango sharks.

CATHOLIC CONGRESS IN LONDON.
London, July 10.—The annual National Catholic Congress, one of the leading ecclesiastical gatherings of the year, assembled today at Cardiff. This year the congress has been given a definitely eucharistic character. The sermons and the principal papers will relate almost exclusively to the blessed sacrament, and for the first time in the history of the congress there will be a procession of the blessed sacrament. This procession will be held Sunday in the grounds of Cardiff Castle.

Tomorrow there will be a large procession of the Catholic children of Cardiff through the streets of the city.

MRS. FLAVELLE COMING HOME.
Florence, July 10.—Mrs. Mary E. Flavelle, of Chicago, who was attacked and wounded by a student, Pietro Rossi, in a train from Genoa to Florence some weeks ago, has left Arezzo for America nearly completely recovered. The Italian government placed at her disposal a saloon carriage in which she traveled to Genoa to take the Princess Irene for New York.

STEEL ORDERS INCREASED.
New York, July 10.—For the first time in four months the unfilled tonnage statement of the Steel Corporation, issued today, showed an increase in orders. On June 30 the company had unfilled orders on its books calling for 4,022,857 tons, an increase of 34,697 tons over May 31. Compared with June 30, 1913, the figures show a decrease of 1,774,690 tons.

WOULD KEEP OUT DEFECTIVE ALIEN

Eugenists Want Stricter Laws to Bar Undesirable Immigrants.

MUST STIR UP PUBLIC

American Genetic Association Says Future of Race Rests with the Steamship Agents.

The Committee on Immigration of the eugenic section of the American Genetic Association makes a strong plea for stricter regulations and more effective immigration laws in order to keep undesirable foreigners out of the United States. The committee in a recent report to the association emphasizes the necessity of arousing public opinion to the urgent need of new legislation and says: "We have hitherto left the choice of the fathers and mothers of future Americans largely to selfish interests which care very little whether we want the immigrants they bring or whether these people will be the better for coming here. Steamship companies and labor brokers all over Europe and even in Asia and Africa are today deciding for us the character of the American race of the future."

Defectives Are Increasing.
The committee claims that in spite of the present law which prohibits the admission of insane and mentally defective aliens, our institutions are filling up with such persons, and what is more serious, there is a rapidly increasing number of mentally defective aliens at large in our communities. The report says that each year brings increasing evidence that those who are most concerned about the maintenance and improvement of the mental and physical well-being of our race, are turning more and more to the regulation of immigration as one of the most obvious means of accomplishing this purpose. It urges that those who want to aid in the work stand behind every official who is earnestly trying to bring about better legislation and stricter enforcement of the regulations.

In connection with the co-operation of the eugenists in this movement, the report says that in the present agitation concerning pending immigration legislation, the question arises what attitude those who are most interested in the eugenic aspect of alien immigration should take in regard to any proposal for a further restriction of immigration by means of such a requirement as the "reading test," embodied in the immigration bill which was vetoed by President Taft.

It is clear, says the report, that sentiment in Congress is strongly in favor of combining more effective regulations in regard to the mental and physical conditions of our incoming aliens, with a further amendment which will be somewhat restrictive. When a further restriction of immigration is recommended, because demanded by economic, moral, and social considerations, by an unprejudiced and competent body of experts like the United States Commission, then we must have very excellent reasons for agreeing with those conclusions.

A decrease in numbers, especially of those aliens who are unskilled laborers and who are more ignorant, will have a very important result in relieving the congestion in our ever-crowded cities; in diminishing economic stress, and therefore in improving the mental and physical conditions of the alien who comes to us. The more skilled and the more intelligent the alien, the less he tends to crowd into our large cities; the less likely he is to become insane or mentally unstable from the strain and stress of life in our congested districts. In conclusion the report says: "Those who are particularly interested in the eugenic aspects of our immigration problems have reasons for joining hands with those who have the economic aspects of these problems most at heart in the campaign for the better regulation of alien immigration to our shores."

A TWO-HEADED OWL BOARDS LINER AND SINGS A SEA DUET

Queer Bird's Vocal Antics Led Passengers to Think Their Ship Was Bewitched.

Special to The Washington Herald.
New York, July 10.—For a while last night, Capt. Spencer, the passengers and the crew thought the good ship Metapan, of the United Fruit Company, was bewitched.

Weird and plaintive notes floated to them out of the salty air, a bass note and a tenor, in a strange and unending duet. No other vessels were near, no airships, nothing but the wide stretch of ocean.

The ship was searched and the search continued from midnight until daylight. Then there was discovered in the rigging an owl with two heads, two necks and two voices.

Capt. Spencer is generally known as a truthful man, and, feeling that his reputation was at stake, he sent a member of the crew up to catch the owl, which he thinks came out to the vessel from Atlantic City, where almost anything may happen.

The captain says he has been feeding the owl double doses of mice and will keep it on the Metapan till it dies, when he will give it to the Museum of Natural History.

OLD WATER TANK TO GO.
New York's Century-old Supply Is to Be Razed.

New York, July 9.—The big iron tank of the Manhattan Company which supplied water to New York City on the lower part of Manhattan Island a century ago, will be destroyed when the four-story building at Lafayette and Reade streets is razed, as it will be soon, to make room for a new building. The building to be razed has been owned by the Bank of the Manhattan Company for more than a century.

It has been many years since any water has been pumped into the old tank. The charter for the tank was obtained in 1792, through the efforts of Aaron Burr. The need of a good water supply was then agitating the city, and Aaron Burr organized the bank ostensibly as a water company.

Several wells were dug, the largest being thirty-five feet deep. Over this well a tank of iron was erected, and this tank has for more than a century been inclosed in the building about to be torn down. The water was piped to the lower part of the city in pine logs.

NOTHING "SLOW" ABOUT THIS.
Chicago Restaurant Has Skating Rink; Teaches Tango Free.

Chicago, July 10.—There is no restaurant or summer garden trust in Chicago. OHIO
ECLIPSED!
QUALITY SERVICE

The Ohio Lunch eclipses all competitors in delicious cooking, exceptional cleanliness, prompt and efficient service and reasonableness of prices. It is Washington's most popular, handsomest, and cleanest lunch room.

Our new building at 804 K St. N. W., opposite the Public Library and just off Ninth street, was built from the ground up specifically to accommodate the most modern and up-to-date lunch room ever opened.

Therefore, our facilities are unusual for the preparation of tempting meals. The entire culinary department is in complete charge of an expert chef, Mr. Nicholas Spilos.

Drop in for dinner Saturday and Sunday and enjoy the many special dishes offered by the menu at remarkably little prices.

OHIO LUNCH

804 K Street N. W. (No Branches)
Opp. Public Library. Open Day and Night.

SUFFRAGE BEAUTIES BEARD TIGER IN DEN

"Boss" Murphy Has Promised to Back "Cause" if Leaders Ask It.

New York, July 10.—Ten tiger tamer, their blue, brown, black and gray eyes glowing with the light of their "cause," stalked from the Grand Central Depot today and started through the jungles of Manhattan. They are after the Tammany cubs—the thirty-five district leaders—four of whom have already gone on record in favor of votes for women.

Mighty Hunter Harriet Stanton Blatch, Bwana Tumbo, of the Women's Political Union, seated in a parlor car of an express train about to depart, faced ten pretty young women, raised her hand in seeming blessing and then declared, "Go to it, girls!" or words to that effect.

Meaning that Charles Francis Murphy, leader of Tammany Hall, who declared yesterday to Mrs. Blatch that "if the leaders—the majority of them—want suffrage, I'll have to agree with them," may soon have to make good.

Every political leader in the Tammany organization will be visited by Monday at the latest and asked to sign a petition asking the legislature to adopt suffrage in New York State.

OLD BOOK SELLS FOR \$12,350.
London, July 10.—What is believed to be a record price for rare volumes was paid here when an Englishman obtained the True Chronicle of the History of King Lear and His Three Daughters for \$12,350 at the Huth Library sale. It is a first edition, printed in 1665, and one of the rarest books in existence. From it Shakespeare is supposed to have taken some of the incidents for his King Lear. The copy was sold in 1905 for \$1,650. George D. Smith, of New York, bid for the book and ran the price up to a large sum before dropping out.

STEEL ORDERS INCREASED.

LOVE FOR JAP ENDS IN JAIL.

New York, July 10.—Coming here to meet her sweetheart, who is a Japanese cook, Gladys Warner, a Kingley, Pa., miner's daughter, was taken into custody early today. The Jap was also arrested, charged with abduction.

The girl showed a letter in which the Jap urged her to come to New York. He made an attempt to escape when he saw the girl with a policeman, who had noticed her searching for a Japanese boarding house where Schima dwelt.

A Hint for Coming Maternity

In a little book designed for expectant mothers more complete instruction is given in the use of "Mother's Friend."

This is an external embrocation, applied to the abdominal muscles for the purpose of reducing the strain on ligaments, cords and tendons.

It serves to ease the mind, indirectly has a most beneficial effect upon the nervous system and thousands of women have delightedly told how they were free of nausea, had no morning sickness and went through the ordeal with most remarkable success.
